

A POSITION ON SPECIES AT RISK LISTING

Are you an eel fisher?

UINR would like your input to help shape a position on the listing of Katew, American eel.

DFO is checking in to see whether previous positions have changed.

The meeting will cover:

- Eel Knowledge - what we know and don't know
- Species at Risk Act (SARA)
- Fishers' previous position on listing
- Approaches to conservation / fisheries management - is listing the only solution?
